

Trodat products are truly original: 37 years ago, the first plastic self-inking stamp was invented with the Trodat Printy. Since then, more than 250 million have been sold all over the world. Each year comes the arrival of new innovations such as Multi Color Impression, the first stamp with personalised multi-colour impressions, or the Trodat Mobile Printy, the first clean, single-handed pocket stamp.

Continuous developments in staff, processes and materials ensure high standards of quality at Trodat. You can be sure that you are getting only the best stamp products for your needs.

Continuity, trust and innovation also characterise the cooperation of Trodat with its sales partners – in more than 150 countries around the globe.

 CREATING ORIGINALS

TRODAT BESTSELLERS – CLIMATE-NEUTRAL. AS STANDARD.

... -30% CO₂ BY 2020

Two years after introducing the Original Printy 4.0, which has incredible CO₂ savings of up to 49%* with respect to its predecessor model and offers climate neutrality as standard, Trodat is once again raising the subject of environment and climate protection in the stamp industry to a new level. Markus Würcher, Managing Director of Trodat GmbH, spoke with Dr. Hildegard Aichberger, Managing Director of the World Wide Fund for Nature (WWF®) Austria, in July 2012 against the backdrops of extremely ambitious targets: wanting to reduce Trodat's CO₂ footprint 30% by 2020 and the absolute necessity of climate-neutral products as the standard instead of as special green product lines.

*ECO-black and ECO-grey. Lower percentage for other colours. More at www.printy.trodat.net

MW: Dr. Aichberger, how has the subject of CO₂ footprint and climate neutrality developed in the economy since our last conversation two years ago?

HA: In the last two years, model companies have increasingly made a mark on the economy with the issues of environment and climate protection. In connection with this, CO₂ footprint reduction has become more of a central objective for organisations. There are also many more companies that go a step further and offer their products as climate neutral by investing in climate-protection projects to compensate for the residual CO₂. In the beginning climate neutrality was mainly an issue in the

paper and printing industries, however big companies in other industries are now offering their products or services as climate neutral. It is always important to obey the basic principle 'first avoid CO₂, then reduce CO₂, and then compensate for CO₂. To simply compensate for CO₂ would absolutely be the wrong way to operate. The objective is to not allow CO₂ to occur in the first place. CO₂ is the most important greenhouse gas.

It accumulates due to its longevity in the atmosphere, therefore simply compensating for CO₂ wouldn't solve our climate problem. It would amount to a kind of 'selling of indulgences'. That is why it's so important to take the route that Trodat

has already taken with the Original Printy 4.0, and first avoid CO₂ as much as possible, then reduce CO₂, and only in the third step compensate for truly unavoidable CO₂.

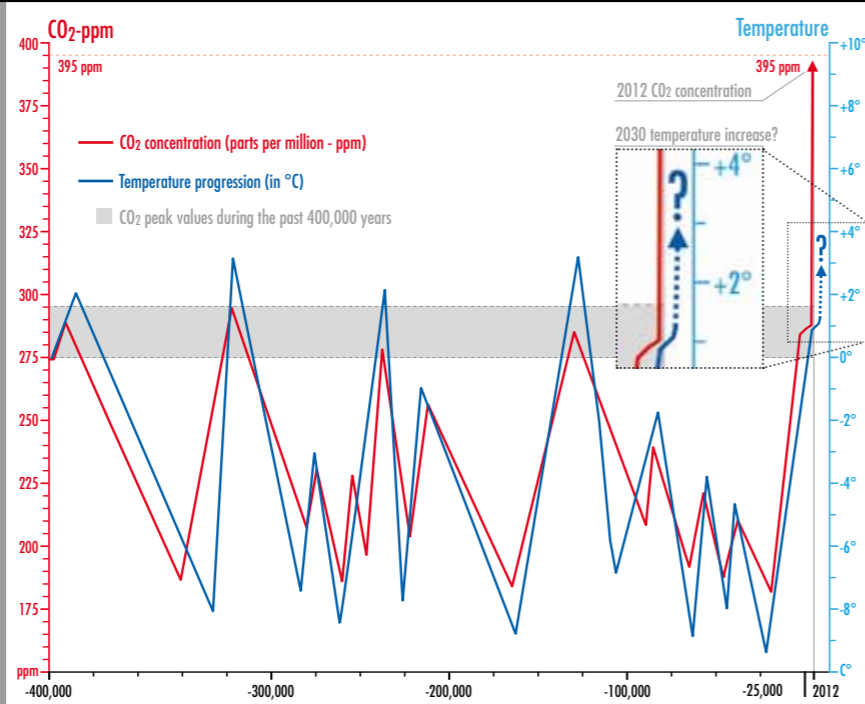

MW: Why do you think there's increasing awareness about the subject of environment and climate protection in the economy?

HA: It's now been clearly demonstrated that our climate is warming and that humans are responsible. Doing nothing is the most expensive solution in the long run. It will destroy our prosperity and our economy. When you consider the CO₂ concentration in our atmosphere,

Climate researchers predict

that global warming of +2 °C will be reached even at a 450 ppm CO₂ concentration.

This mark could be reached as early as the year 2030 at the current constant average increase of 2-3 ppm per year. It would thus severely impact our children and grandchildren as early as the second half of this century! There have always been temperature fluctuations on earth, but they had cycles of tens of thousands of years. Fluctuations of more than +2 °C have appeared very rarely in Earth's history, but most significantly never 'in an instant', as in the last 200 years since the beginning of the industrial age. This development is so dramatic because the temperature on our planet demonstrably follows CO₂ concentration, i.e. if CO₂ concentration in the atmosphere increases, then the earth's temperature also rises.

Dr. Hildegard Aichberger (WWF® Austria) in conversation with Markus Würcher (Trodat GmbH).

you'll find that it has increased dramatically in recent decades. If it amounted to between 200 and 300 ppm (parts per million) during the preindustrial 400,000 years, it's already between 390 and 400 ppm today and continues to climb (see box). This means that CO₂ concentration is already +33% above the highest natural values of the last 400,000 years.

A concomitant temperature increase of more than +2 °C can endanger our whole livelihood: the growing seasons and the water cycle would change; devastating floods, droughts, and wind storms would result. Sea levels would rise significantly. Many countries and coastal megacities would be massively affected, because large parts of them would be flooded. Since 1990 at any rate, the number of climate-related disasters has doubled. The point here is that +2 °C represents the 'best case scenario' that we can only reach if we immediately apply all our available resources and achieve a CO₂-free society by 2050. If we don't do this, the mean temperature will increase considerably more than +2 °C and the consequences for humans could no longer be assessed.

MW: Everyone's talking about climate neutrality or CO₂ reduction these days. Is the subject already socio-politically relevant?

HA: The 'mainstreaming' in the language is somewhat problematic, because it doesn't help to generate concern among people. Unfortunately we don't have a sense organ to detect creeping climate changes.

MW: So is it the responsibility of politicians to educate the population?

HA: That it is, and a few steps have already been taken. The EU Commission stipulated the so-called '20-20-20 target'

in its climate protection and energy policy: greenhouse gases must be reduced by at least 20% by 2020 relative to 2005. The proportion of renewable energy sources (wind, sun, biomass, etc.) must increase to 20% (2005 EU-wide 8.5%, 2010 already 12.4%), and energy efficiency must also increase by 20%. Thus energy consumption at constant economic output must decrease by 20%. We're already farther along in Austria: the proportion of renewable energy was 31% in 2010. Our stipulated 2020 target is 34%, with which we contribute to the pan-European 20% target. It's crucial that these values represent the absolute minimum to avert a scenario as described previously. The states current action plans are not yet sufficient to meet these requirements. These climate targets are also the requirement that the WWF® places on its best-practice companies and cooperation partners.

MW: Trodat has now set itself the goal of reducing its CO₂ footprint 30% at the company and product level by 2020. How do you view a goal of this magnitude in this context?

HA: Reducing CO₂ emissions 30% by 2020 is the right goal. It's ambitious and challenging. Trodat thus clearly surpasses all of the targets currently prescribed by policy objectives. It proves that Trodat doesn't just want to exploit the subject of environment and climate protection as a communication tool, but really wants to live it with complete conviction. For the WWF® Austria, Trodat qualifies as an absolute best-practice company in terms of environmental and climate protection, not only within the office products industry, but also in the entire economy. This goal is also absolutely outstanding internationally! To be able to achieve such a goal, it is

essential to reduce the CO₂ footprint of its main products to a minimum thus committing its core business to environment and climate protection. This will strive for systematic change. Measures in these areas make overriding sense for the WWF® Austria, because their effects are significant due to the relatively higher sales volume. From our point of view, true environment and climate protection orientation manifests itself by the company showing that it commits its main business - i.e. its standard products, to environmental and climate protection, thus maximizing the positive impact. The path taken by Trodat to offer its main products as carbon neutral is therefore exactly the right one. That should be preferred to just offering green secondary product lines because of the more positive climatic effect. Climate neutrality as standard is the only way to achieve a CO₂-free economy by 2050 thereby achieving the 2 °C target.

MW: How do you think the industry will respond to Trodat's announcement that it wants to reduce its CO₂ footprint 30% by 2020?

HA: The role-model effect is extremely important in climate protection. I hope that other companies learn a lesson from the positive example set by Trodat and take action to reduce their CO₂ footprint. It's the only way to achieve the goal of a CO₂-free economy by 2050. In any case, I congratulate Trodat on the decision to set such an ambitious CO₂ reduction target for itself and to continue their efforts whilst setting a good example to others.

MW: Dr. Aichberger, I thank you very much for your time.

THE TRODAT ADDED VALUE PRINCIPLE

The great desire to do things better is the driving force behind our constant search for innovations. Helping our partners to become market leaders is the objective of every division of the Trodat Group. Original Trodat products simply give our customer more.

AND: MORE REASONS TO BE HAPPY!

This is because the new Trodat added value system rewards loyalty and makes Trodat partners more attractive for stamp purchasers. Each of the individual system modules already enjoys a significant market position in their own right. However, their unique added value only truly reveals itself in their combined use. The Trodat added value system is more than the sum of its parts.

1. SUPERIOR STAMP COMPONENTS – Trodat Professional, Printy, Mobile Printy
2. BEST PRODUCTION EQUIPMENT – Trotec Speedy laser engraving equipment, Rayjet
3. LATEST MARKETING METHODS – uTypia Web-Shop Software
- > MULTI-COLOUR IMPRESSIONS – Multi Color Impression

Combining these products and services generates unique Trodat customer benefits. Enthusiastic customers are the best basis for sales success. This makes the stamp business fun.

1. TRODAT STAMP PRODUCTS CLEARLY SUPERIOR

Modern design, exceptional functionality and the best materials make each Trodat stamp an original. The **Trodat Professional** – climate-neutral. As standard; the office stamp for frequent and precise application. The new **Trodat Printy 4.0** – climate-neutral. As standard; smaller, simpler and constructed from a high percentage of recycled plastic. And the **Trodat Mobile Printy** – the cleanest pocket stamp there has ever been, with its ingenious single-handed operation. At the same time, you as a specialist stamp dealer, are able to meet your customers' exact wishes in terms of individuality and differentiation. This is because the **Multi Color Impression** allows you to make each Trodat stamp an exclusive, personalised colour stamp.

Go to page 12 and visit www.trodat.net to find out more about Original Trodat stamps.

2. TROTEC LASER CUTTING-EDGE STAMP TECHNOLOGY

Trodat GmbH's subsidiary company Trotec GmbH is a leading global manufacturer of laser-engraving equipment for stamp manufacturers, engravers and sign makers. In recent years, the company has also made a name for itself in industrial applications. **Trotec lasers are indispensable for engraving and cutting in an economic, high-quality stamp manufacturing process.** It was also Trotec which developed the production of Multi Color Impressions with laser technology and introduced it to the manufacturing process.

Go to page 52 and visit www.troteclaser.com to find out more about Trotec.

3. uTypia WEB SHOPS ESSENTIAL DISTRIBUTION CHANNEL

The online shop has become one of the stamp industry's most essential distribution channels. Comprehensive functionality and integration possibilities make the Trodat internet solution – uTypia - the leading online stamp shop software.

Whether for consumers, corporate customers or resellers – uTypia offers the right solution for every customer segment. From sophisticated special functions for business customers to the extremely simple, intuitive ordering process for untrained end-users, uTypia software simplifies stamp ordering for everyone involved and brings you and your customers significantly more value.

For more information on uTypia, please see page 68. Alternatively please visit www.uTypia.com or www.uTypiasoftware.com.

> TRODAT MULTI COLOR MULTI-COLOUR HAS JUST GOT EASIER

Creating personalised multi-coloured impressions is now easier than ever. New to the range: the **Trotec Multi Color Jet**. From now on you can produce your own multi-coloured stamps **more cost-effectively and more quickly**. The Multi Color Jet is an individual machine which inks the ink cartridges, while the laser engraves the textplates. The Multi Color Jet always gives you a choice of 15 Multi Color inks. Your Multi Color Jet and your Trotec Laser are both connected to the same computer.

Go to page 8 and visit www.multicolor.trodat.net to find out more about Trodat Multi Color.

trodat[®]
CREATING ORIGINALS

TRODAT INDIVIDUAL COLOUR STAMPS

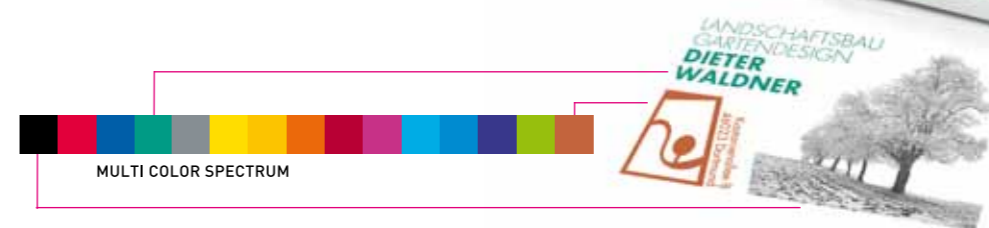

Trodat offers the first stamp to create a good impression immediately with its multiple colours. Personalised Trodat colour stamps are the stars of the stamp world. The impression becomes the calling card of the modern business. Trodat Multi Color Impression is patented and globally unique. Manufactured using laser technology, the ink cartridge and textplate may be reproduced at any time. Exclusively from Trodat.

The new stamp impressions are colourful. Because life is colourful.

THE BENEFITS OF MULTI COLOR IMPRESSION AT A GLANCE

- Differentiation.** Meet your customer demands for differentiation and individuality. Select your own colour fields for the impression.
- Trade Symbol.** Offer your customers unique impressions with colourful symbols and company logos which emphasise their corporate identity.
- Process security and repeat orders.** The patented Multi Color manufacturing process guarantees the exact colour and shape throughout the production process and for repeat orders, and that of the replacement ink cartridge.
- Top quality impression.** Your multi-colour impression at the usual perfect level of Trodat quality.
- Variety of colour.** Include any of the 15 available colours for your impression design.

Colourful impressions create by far the best impression.

MULTI COLOR IMPRESSION – THE WAY IT WORKS

Tried and tested technology:

The Trotec Laser Speedy 100, Speedy 300 or Rayjet series form the technological basis for the production of Trodat Multi Color stamps. Special, un-inked ink cartridges - matching precisely the impression design – are cut by laser to match each of the individual colour fields.

Now new and simplified:

The Multi Color ink cartridge is now inked using the new Trotec Multi Color Jet. Revolutionary: You no longer need to re-tool! All 15 colours are already installed in the Multi Color Jet.

So, while your laser is in the process of engraving the textplates, the Multi Color Jet is already busy inking the ink cartridges. This allows you to produce more of the unique Multi Color stamps quicker and in a more cost effective manner.

One computer - many possibilities

The new Trotec Multi Color Jet is operated using the same PC as you already use to control your Trotec laser.

MULTI COLOR IMPRESSION INKS

7012 – available in: 150ml Multi Color Tank*
0,5l / 1l / 5l / 20l bottles.

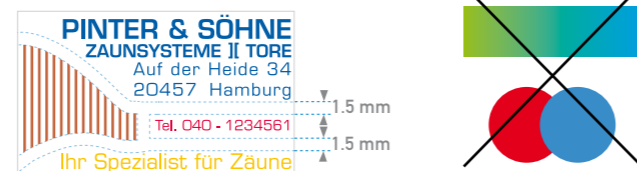

Available colours:

black	red	blue	green	squirrel grey	zinc yellow	signal yellow	deep orange	carmine red	traffic purple	light blue	sky blue	violet	yellow green	orange brown
-------	-----	------	-------	---------------	-------------	---------------	-------------	-------------	----------------	------------	----------	--------	--------------	--------------

MULTI COLOR SPECTRUM

*Replacement dispenser must be ordered separately

FOR YOUR INFORMATION

A minimum distance of 1.5mm between colour fields and a minimum colour field size of 7mm x 7mm are required. Overlapping colours and colour blends are NOT possible

MULTI COLOR COMPATIBLE

The majority of models in the Trodat Professional, Trodat Printy and Trodat Mobile Printy ranges are compatible with Multi Color Impression. You will find appropriate instructions with every product.

Vegetable Sale
23000 Liverpool
Kensington South 29023

- CLIMATE-NEUTRAL. AS STANDARD.**
The Trodat Professional is climate-neutral. As standard.
- ERGONOMIC**
The Professional offers the greatest user comfort. It lies perfectly in the hand thanks to its ergonomically shaped handle. The imprint occurs in a soft, round stamp motion.
- RELIABLE**
The Professional's sturdy steel core guarantees durability and stability. It's precisely right for the office's varied daily demands.
- CLEAN**
Dirty fingers while adjusting the date? Not with the Professional. The stable date band cover prevents finger contact with the stamp ink and keeps your fingers clean - every day.

TRODAT PROFESSIONAL TYPOMATIC DO-IT-YOURSELF

Combines the advantages of the ideal office stamp with the opportunity to set your own stamp text and change it again at any time.

STAMPS FOR AT HOME AND ON THE MOVE

ORIGINAL TRODAT PRINTY 4.0 CLIMATE-NEUTRAL. AS STANDARD.

The Original Printy 4.0 doesn't just impress with its appealing design – it is also climate-neutral as standard. In comparison with the previous model, up to 49%* CO₂ is saved during manufacture. The residual, unavoidable CO₂ footprint is compensated by investment in Gold Standard climate protection projects recommended by the WWF®.

*ECO-black and ECO-grey. Lower percentage for other colours.

ORIGINAL TRODAT PRINTY DATE STAMPS EVERYTHING IN THE FIELD OF GREEN

'Green' is standard with the majority of the Printy date stamps too. This is because it is manufactured with a high proportion of recycled plastic. Any unavoidable CO₂ is compensated for with investments in Gold Standard climate-protection projects recommended by the WWF®.

ORIGINAL TRODAT PRINTY 4.0 TYPOMATIC FOR DO-IT-YOURSELF SETTING

Changing addresses, telephone numbers, etc. - no problem! The new Printy 4.0 offers a high degree of flexibility as a do-it-yourself-setting stamp too.

ORIGINAL TRODAT OFFICE PRINTY 4.0 WELL ORGANISED

As a stock-text stamp, the new exclusive - design Office Printy 4.0 organises any desk in no time with important notations.

TRODAT MOBILE PRINTY SIMPLE. STEADY. CLEAN.

The Mobile Printy, with unique single-hand operation, is the simplest, most stable, and cleanest pocket stamp ever. Its modern design underlines the innovative functionality and makes it a practical, attractive accessory on the move. That's also why the Trodat Mobile Printy was selected product of the year for the second time in 2009.

WE ASKED – YOU DECIDED

Numerous surveys of rubber stamp makers were carried out to identify ‘What do you expect from the ideal stamp?’ The valuable results have had a significant impact on the development of the Original Printy 4.0.

WHAT DO YOUR CUSTOMERS WANT TO BUY?

The Original Printy 4.0 is not just about impressing rubber stamp makers. It also needs to sell well. That's why we also asked users what, in their opinion, makes a good stamp. There were some interesting responses. And we incorporated these ideas when we developed the Original Trodat Printy 4.0.

OUR RESPONSES TO YOUR REQUESTS:

1. THE EASIEST POSSIBLE TEXT PLATE MOUNTING

This is guaranteed by the elevated position of the text plate holder and the alignment grid for securing the text plate.

2. EASILY REMOVABLE INDEX WINDOW

The large recessed grip ensures extra-easy opening. The symmetrical cover snaps into place perfectly – whichever edge is at the front or back.

3. UNBELIEVABLY SMALL AND LIGHT

The Original Printy4.0 is one of the most compact self-inking stamps in the world.

4. EASY TO PERSONALISE

The large printable front side also comes with a white front plate. This provides endless options for logos and individual prints!

OUR RESPONSES TO CUSTOMER REQUESTS:

1. CLEAN INK CARTRIDGE CHANGE

Special grips avoid the user touching the cartridge insert.

Note: All Trodat stamp colours guarantee impressions which will last for decades.

2. PRECISE POSITIONING

The crystal clear viewing window ensures that the impressions are precisely aligned. And the transparent edges of the base guarantee ultra-precise alignment!

3. UNBELIEVABLY SMALL AND LIGHT

The perfect stamp for on the go, fitting into even the smallest pocket. The innovative IMD technology minimises the chance of scratches and finger prints. For an attractive and sophisticated look which stands the test of time.

4. CLIMATE-NEUTRAL. AS STANDARD.

The Original Printy 4.0 is not just unbelievably small and light, but also consists of up to 65%* post-consumer recycled plastic. This helps to save valuable resources and up to 49%* CO₂. And investment in climate protection projects recommended by the WWF® compensates for the inevitable CO₂ footprint.

* ECO-black and ECO-grey. Lower percentage for other colours. For more information, see www.printy.trodat.net

IN A NUTSHELL

The Original Printy 4.0 stands for: saving time, space and money. With each individual item. And since it adapts perfectly to the requirements of the customer, this Printy is also a real money-spinner!

FUNCTION STYLE

MOUNTING OF TEXT PLATES

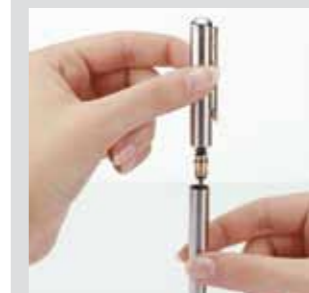

To attach the text plate, release the stamp mechanism with the ink pad to the right. Remove protective film.

Hold the text plate so that the text shows in reverse. Affix the text plate.

CHANGING THE REFILL

It's simple: Unscrew the ball pen in the middle, change the standard refill and screw it together again.

TRODAT INK CARTRIDGES

Trodat ink cartridges for Professional, Printy and Mobile Printy are truly high-tech products. Both the pad material and the colour have continued to be perfected through years of research. That is why a Trodat impression functions just as well at a polar ice cap as in a tropical rain forest. Even, consistent colour application with every impression.

no re-inking

clean hands

clean impression

- > clean impression, document quality
- > precise inking prevents colours running
- > no drying out
- > all colours are completely non-toxic
- > clean change of ink cartridge in no time at all

INK CARTRIDGE

TRODAT PRODUCTION MATERIALS AND MACHINES

TRODAT LASER RUBBER

Trodat laser rubber offers the right text plate material for a variety of purposes. For odourless engraving, for high production engraving or for special applications such as stamping or oil-based inks.

Choose from our extensive range of text plate materials. Take advantage of the Trodat range, developed for the most varied stamp application.

TRODAT IDEAL PHOTOPOLYMER

This will exceed your expectations for flexographic applications. Trodat IDEAL photopolymer is designed for precise reproduction of even the most detailed text plates with optimum exposure time.

TRODAT STAMP INKS

Trodat stamp inks have been developed to fulfil all the most extreme demands, bringing you optimum durability in hot or cold climates or in moist or dry air. Maximum outline sharpness. Rich colour impressions. Indelible ink.

TROTEC LASER TECHNOLOGY

Trodat GmbH's subsidiary company Trotec GmbH is a leading global manufacturer of laser-engraving equipment for stamp manufacturers, engravers and sign makers. Trotec lasers are indispensable for engraving and cutting in an economic, high-quality stamp manufacturing process.

PRODUCTION

IDEAL DAMMING TAPE DT

This tape provides a dam to keep the poured photopolymer in place over the cover film and negative.

It helps to ensure even and consistent total text plate height. This disposable foam tape is easy and economical to use.

Packaging

2 pcs

IDEAL "C" SERIES SUBSTRATE

Trodac IDEAL Substrate backing sheets have been developed to provide unprecedented adhesion to the photopolymer.

The substrate also has excellent light diffusion which results in smoother, more consistent backgrounds.

Available sizes:

22.5cm x 30.5cm	26cm x 26cm	27cm x 35.6cm
30.5cm x 36.9cm	30.5cm x 49cm	36.6cm x 53cm

Packaging

50 pcs

IDEAL ILW – LIQUID WASHOUT CONCENTRATE

Trodac IDEAL iLW is a cost-efficient liquid washout concentrate that effectively removes the uncured polymer during the washout stage.

iLW provides excellent results and washout life whether it is used in automatic tank washout systems or hand-washing. This is an important step to producing tack-free plates.

Packaging

Available in 1kg or 9kg containers

IDEAL iBOOSTER

Trodac IDEAL iBooster is a washout additive that extends washout life in all water conditions. This is highly recommended for use when hard water conditions exist.

The iBooster is used in addition to the iLW washout additive.

Packaging

Available in 7.25kg container

IDEAL iDFOAM

Trodac IDEAL iDfoam is a de-foamer that is added to the washout solution to eliminate foaming in spray washout equipment.

Packaging

Available in 7.25kg container

IDEAL IPXC – POST-EXPOSURE ADDITIVE

Trodac IDEAL iPXC is a patented post-exposure additive to prevent possible stickiness on the photopolymer plate.

The product consists of liquid and powder components.

Packaging

Master carton 4kg

TRODAT STAMP INKS

STAMP PAD INKS

> Stamp pad ink to re-ink your stamp pad.

PRODUCTION

TROTEC LASER

trotec[®]

laser. marking cutting engraving

setting
new
standards

Trotec is the leading international provider of advanced laser equipment for a range of applications, from laser cutting and engraving to industrial marking. The company's extensive line of quality laser engravers, cutters and markers, coupled with its unmatched service and support offerings, have made Trotec one of the industry's leading resources for computer controlled laser engraving equipment and marking systems.

RAYJET

Engraving has never been this easy

- > Easy to operate and install
- > Easy to use and maintain
- > Easy to afford
- > Easy to generate business

www.rayjetlaser.com

THE FLEXX CONCEPT

Maximum flexibility

- > One machine – endless possible laser applications
- > CO₂ and fiber laser in one machine
- > Use both laser sources on one material
- > Available for Speedy 300 and Speedy 400 platform

MULTI COLOR JET

Making multi color easier

- > Automated production of multi color stamps
- > 15 Multi color inks permanently available for production
- > More productivity due to stand-alone solution (laser and inking station)
- > Available with Rayjet, Speedy 100, Speedy 300 and Speedy 400

WHY LASER?

- > Efficient production – single pieces or series
- > Flexible production – Laser systems can be used for many different applications and materials
- > Highest text plate engraving and cutting quality – for text, logos or images
- > Environmentally friendly production – direct from computer to material

**Stamp production with laser technology – always an advantage!
One stamp per day finances the investment costs of a Trotec laser
(lease financing over 48 months)**

WHY TROTEC?

- > Complete solutions: Take advantage of the perfect combination between laser system, exhaust unit and laser rubber
- > Multi Color Impression: Generate more business and profit with multi color imprints
- > Simple operation: Our innovative JobControl[®] software is simple to use and gives you full control over all laser functions. Or use Trotec's easy-to-use JobCreator typesetting software.
- > Robust and durable: Trotec laser systems are designed for intensive use over many years. Reliability and high quality engraving results over many years are guaranteed.
- > Local presence: Trotec lasers are developed and produced in Austria, sold and supported in over 90 countries all over the globe.

OTHER PRODUCTS

Highest user-friendliness in uTypia Consumer

Templates facilitate the order process

THE MOST IMPORTANT uTypia SOLUTIONS

uTypia Business

uTypia Business is the all-round online shop solution with a particular focus on B2B. Much functionality of the site facilitates the ordering process for your large corporate customers. Custom-specific rates can be offered relating to available products, prices, discounts, delivery and payment, etc. Your corporate design can be incorporated into your personalised template. A great feature means that the store can be easily integrated into other system, such as your end customers' e-procurement systems (e.g., SAP, Oracle, Ariba).

uTypia Consumer

uTypia Consumer is our new online shop solution paying particular attention to the requirements of private customers, small businesses and home offices. The ordering process is intuitive, with just four easy steps. This makes ordering customisable products simple even for inexperienced users, with the attractive design of the site helping to make customers feel comfortable during the ordering process. The software is technically optimised for search engines.

Integration

uTypia has a great deal of knowledge in integrating itself into other systems. It can be combined with all popular e-procurement systems. This makes the process of ordering customised products simpler, with all parties involved saving time and money. In addition shop-in-shop integrations are increasingly in demand. This of course, is possible. uTypia can be integrated so that the user will be guided to uTypia for just the customisation of a product (e.g., stamp layout).

uTypia Page

uTypia Page is the first step toward creating a professional online presence for your company. This website solution has many modern design features developed by web design specialists. It also has the ideal technical prerequisites for search engine optimisation. The content management system is easy to use and helps you to keep all information current. uTypia Shops and uTypia Page can be perfectly combined with one another.

E-commerce with uTypia—the right solution for the right target group!

For more than a decade, Trodat has offered its dealers online software under the name 'uTypia'. Many dealers have successfully implemented the solution and it is now a permanent part of their sales strategy. Over 500 partners currently use uTypia worldwide.

From consumers to corporate customers to resellers—uTypia offers the right solution to optimally reach and satisfy the needs of all customer segments. For this reason, the uTypia online shop is offered in two variations:

The uTypia Consumer Shop is tailored to private customers and small businesses. It utilises modern design, a simple, intuitive ordering process, and the best technical prerequisites for search engine optimisation.

The universal uTypia Business Shop has been successfully used for over ten years. It focuses on the needs of business customers.

uTypia online shops are constructed flexibly, meaning that they can be adapted to your individual requirements and needs.

Which products can be bought online with uTypia's help?

- > **Stamps of every kind**
(round stamps, text stamps, date stamps, and Multi Colour stamps)
- > **Engraved products**
(signs, awards, trophies, etc.)
- > **Printed materials**
(business cards, labels, t-shirts, etc.)
- > **Personalised promotional items**
(mugs, key chains, mouse pads, etc.)
- > **All kinds of non-personalised products**

> COMMENTS

The text plate sizes indicated are upper limits and do not necessarily correspond to the actual size of the impression. This may be marginally different depending on the production method used for the textplate. Colour designs depend on a wide range of influencing factors, such as paper, humidity, monitor settings, etc. It is possible that individual colour systems may vary. All data provided are Trodat definitions.

We recommend you carry out print proofs and sample stamps. The impressions and logos shown are entirely fictitious. Any similarities to existing companies and real people are purely coincidental.

We reserve the right to make changes to the products.
